ENVIRONMENTAL POLICY

RLA Polymers, an Australian chemical manufacturing company specialising in adhesive and construction chemical products, is committed to producing sustainable products in a robust, credible, and environmentally responsible manner.

RLA Polymers manages its environmental responsibilities in a systematic manner by complying with applicable environmental legislation and standards, including the Environmental Protection Act, 2017 (VIC), Environmental Protection Act, 1994 (QLD), Environmental Protection Act, 1986 (WA) and the Protection of Environment Operations Act, 1997 (NSW), Environment Protection and Biodiversity Conservation Act, 1999.

RLA Polymers is committed to the protection of the environment, including prevention of pollution, sustainable resource use, and minimisation of environmental impacts associated with its activities, products, and services.

To support this commitment, RLA Polymers encourages:

- Efficient use and management of raw materials, products, and utilities
- Waste minimisation through recycling and reuse initiatives
- Encourages pollution control, spill & dust control through systematic processes and techniques
- Identification, assessment, and management of environmental risks associated with operations
- Establishment, implementation, maintenance to continually improve the Environmental Management System (EMS)
- Provision of training and raising of awareness among employees and contractors
- Engagement with interested parties to promote environmentally responsible practices

The policy provides framework for setting and reviewing environmental objectives and supports continual improvement of environmental performance.

The environmental policy is communicated internally and made available to relevant interested parties through appropriate channels, including company communications and the website.

This policy is reviewed periodically to ensure its ongoing suitability, effectiveness, and alignment with RLA Polymers' strategic direction and environmental commitments.

RLA Polymers is committed to integrating environmental considerations into all levels of operations, supporting sustainable development, and protecting the environment for current and future generations.
